

# MUHAMMAD JAWAD ASGHAR

# COMPUTER ENGINEER

Taxila, Pakistan

jawadasghar404@gmail.com | linkedin.com/in/Jawad Asghar | +92 310 5818067

**CAREER OBJECTIVE** 

Recent graduate with a strong foundation in networking concepts and protocols. Skilled in configuring, managing, and optimizing network infrastructures, with hands-on experience from academic projects. Proficient in troubleshooting, problem-solving, and eager to learn new technologies to enhance network efficiency and security.

#### **EDUCATION**

2020 - 2024

UNIVERSITY OF ENGINEERING & TECHNOLOGY, TAXILA **BS. Computer Engineering** 

CGPA 3.26/4

#### **PROJECTS**

# MACHINE LEARNING BASED FRUITS AND CROPS DISEASE DETECTION: WEBSITE AND APP ENSEMBLE (AGRICULTURE TECHNOLOGY INNOVATION) FYDP

This project basically utilized the EfficientNet-B0 model to accurately identify diseases from images of fruits and crops. A user-friendly web application was developed to enable easy uploading of images, real-time analysis, and disease detection results.

#### **GRID COMPUTING AND CLUSTERING**

Developed a grid computing system to efficiently distribute and process computational tasks across multiple networked computers. Implemented a Python-based methodology to automate task distribution, resource allocation, and result aggregation, improving efficiency in distributed computing environments.

# **NETWORK MONITORING USING NAGIOS**

Designed and deployed a network monitoring system using Nagios to track system availability and performance. Configured real-time alerts, analyzed network traffic, and implemented proactive monitoring solutions to ensure minimal downtime and optimized network operations.

#### **PROFESSIONAL SKILLS**

- Putty/ Filezilla
- VS CODE

- Cisco Packet Tracer
- Opti System

# **LANGUAGES**

- English (Conversational)
- Urdu

#### **CERTIFICATION**

Networking Essentials (Cisco)
